## SUMMARY

Results-driven Software Engineer with expertise in AI application development and cloud computing. Proven track record of building scalable solutions that save time and costs whilst driving user growth.

## EDUCATION

### Lewisham College

Extended National Diploma in Information Technology

London, England, UK

June 2025

- **Relevant Coursework:** Software Development, Cloud Computing, Database Management

## WORK & LEADERSHIP EXPERIENCE

### OPSIS AI

Software Engineer

London, England, UK

July 2025 – Present

- I lead development of an AI assistant helping 2D and 3D animators create beautiful storyboards
- I built a platform saving animators 4-5 hours per project; resulted in thousands of pounds saved
- I grew our waitlist to 30,000+ users through social media campaigns I created and managed

### LOTUS BPM AI Services

Full Stack Engineer

Remote, United States of America

January 2025 – August 2025

- I built AI DOCS COPILOT application helping students learn 70% faster and improve grades by 90%
- I developed the application using Next.js, FastAPI, Python, and AWS services (S3, RDS, Elastic Beanstalk)
- I integrated multiple APIs including OpenAI, Claude, Stripe for payments, and Langchain for AI functionality

### Open Source Technology Community

Software Engineer

London, England, UK

January 2024 – December 2024

- I wrote 20+ technical articles about software development and cloud computing best practices
- I built an engaged community of nearly 5,000 followers across LinkedIn, Instagram, and Twitter
- I improved Dottie AI application and enhanced TheTechCommute website performance by 30%
- I managed cloud infrastructure with hands-on experience across 8 AWS instances using EC2, EFS, EBS, RDS

### Amazon Web Services & Barclays Training

Professional Development Programmes

London, England, UK

May 2024 – June 2024

- I completed AWS Developer training and earned AWS Certified Developer Associate certification
- I participated in Barclays Finance Technology programme through Springboard; gained fintech expertise

## SKILLS, ACTIVITIES & INTERESTS

**Languages:** English (Fluent)

**Technical Skills:** Python, JavaScript, Next.js, FastAPI, AWS (S3, EC2, RDS, Lambda), Docker, PostgreSQL

**Certifications & Training:** • AWS Certified Developer Associate • Cloud Computing Specialist • Finance Technology Programme

**Activities:** • Open Source Contributing • Technical Writing • Hackathon Participation (3rd Place - Fiberplane & Cloudflare)

**Interests:** AI Development for Creative Industries, Educational Technology Innovation
