Skills

- AWS | Cloud Computing | CI/CD | S3| Nightwatch | Unit Testing |AWS Lambda | OOP | Software Engineering | PostgreSQL | Building| Software Development | AWS Cloudfront | Publishing | IQ | Security | Docker| Kubernetes | DevOps| Ansible | Terraform | harmony | Teamwork | Cooperation | Leadership | Partnership | Azure | Pair programming | TDD | BDD | Agile

Experience

Full Stack Engineer, LOTUS BPM AI Services   *United State of America*   **01//2025 - Present**

- Participated with other developers in the undergoing development of an AI application to analyse NDAs and contracts, reducing violations by 60%, addressing a 70% rise in cases, protecting 435,293 employees, and mitigating risks from 3122 global data breaches

Open Source Contributor   *London.England, UK*   **01//2024 - Present**

- As an esteemed open-source contributor in software engineering and cloud computing, I've made significant contributions to the tech community. I've authored over 20 insightful blogs and articles on software development,and cloud computing. My expertise spans across AWS services such as EC2, EFS, EBS, and RDS, with hands-on experience managing 8 cloud instances and databases.
- My dedication to open-source extends to GitHub, where I've actively contributed to several software projects, receiving recognition through 10 merged pull requests and collaborating with lots of developers worldwide.
- Beyond code contributions, I've curated and shared valuable software development content on Instagram, LinkedIn, and Twitter, amassing a combined following of over 2,000 tech enthusiasts. Additionally, I've contributed to discussions and articles on LinkedIn, engaging with professionals and expanding industry knowledge within the community.

Finance Experience, Barclays   *London.England, UK*   **05//2024 - 06/2024**

- Explored various aspects of the banking industry, learning about financial products, services, and regulatory compliance.
- Gained insights into workplace dynamics, including professional communication, collaboration, and time management skills.

Cloud Experience, Amazon   *London.England, UK*   **05//2024 - 06/2024**

- Completed an Introduction to Cloud Computing course, covering topics such as cloud infrastructure, storage, databases, and security.
- Developed and deployed cloud-based applications using AWS services like EC2, S3, Lambda, and RDS.

Education

Extended National Diploma in Information Technology   **Lewisham College**   *London, England, UK*

AWS CERTIFIED DEVELOPER ASSOCIATE EXAM AND GOT CERTIFIED   --- *PASSED*

Projects

- **AWS HANDS ON PRACTICE:** practical use case of the AWS cloud platforms creating infrastructure as a service use cases.
- **FULL BLOGS ON AWS SERVICES AND HOW TO USE THEM:** I write blogs to educate people on different AWS services on the cloud and how to use them.
