PROFESSIONAL SUMMARY

Software Engineer and AWS Certified Developer building AI-powered, cloud-native applications in Python, TypeScript and AWS. Cut API latency by 55% and held crash rates at 0.3% on an enterprise AI platform, and helped grow product waitlists past 30,000 users. Barclays Finance Technology programme alumnus seeking Technology Analyst and Software Engineering roles in investment banking and financial services.

EDUCATION

Aston University — BSc (Hons) Computer Science *In progress*
Lewisham College — Extended National Diploma in IT: **Distinction** (A*A*A A-level equivalent) *Jun 2025*
Stanford University (Online) — Machine Learning & Artificial Intelligence: **Distinction** *Completed*
• Relevant coursework: Software Development, Cloud Computing, Database Management, Machine Learning

PROFESSIONAL EXPERIENCE

Genie AI **Toronto, Canada (Remote)**
Software Engineer *Sep 2025 – Present*
• Reduced API response time by **55%** (420 ms to 190 ms) and cut production crash rate to **0.3%** by moving request handling to asynchronous Python and improving database indexes.
• Build scalable enterprise AI applications using Next.js, FastAPI and AWS services.

Opsis AI **United States (Remote)**
Software Engineer *Jul 2025 – Sep 2025*
• Led development of an AI storyboarding assistant for 2D and 3D animators using machine learning models, saving users **4–5 hours per project** and thousands of pounds in production costs.
• Grew the product waitlist to **30,000+ users** through social media campaigns I designed and managed.

LOTUS BPM AI Services **United States (Remote)**
Full Stack Engineer *Jan 2025 – Aug 2025*
• Built AI Docs Copilot, a document-intelligence platform that helped students learn **70% faster** and improve grades by up to **90%**.
• Integrated OpenAI, Claude and LangChain for AI features and **Stripe** for subscription payments, on a Next.js/FastAPI stack hosted on AWS (S3, EC2, RDS, Lambda, Elastic Beanstalk).

Open Source Technology Community **London, UK**
Software Engineer *Jan 2024 – Dec 2024*
• Improved TheTechCommute website performance by **30%**, enhanced the Dottie AI application, and managed infrastructure across **8 AWS instances** (EC2, EFS, EBS, RDS).
• Published **20+ technical articles** on software engineering and cloud best practice, reaching nearly 5,000 followers.

Barclays & Amazon Web Services **London, UK**
Professional Development Programmes *May 2024 – Jun 2024*
• Completed the **Barclays Finance Technology programme** (via Springboard), gaining hands-on exposure to financial technology.
• Completed AWS Developer training and earned the **AWS Certified Developer – Associate** certification.

PROJECTS

PulsePM — pulsepm.ai
Founder & Engineer — AI project management platform
• Building a project workspace with an AI project manager that turns whiteboard photos, voice notes or briefs into reviewable plans, flags overdue and at-risk work daily, and drafts stakeholder status reports from live project data; integrates with Claude, Cursor and MCP clients.

SKILLS, CERTIFICATIONS & ACHIEVEMENTS

Languages: Python, TypeScript, JavaScript, SQL, HTML/CSS
Frameworks: Next.js, React, FastAPI, Node.js, Express.js, Django, LangChain
Cloud & DevOps: AWS (EC2, S3, RDS, Lambda, EFS, EBS, Elastic Beanstalk), Docker, Git, Linux, CI/CD
Data & AI: PostgreSQL, database indexing & query optimisation, OpenAI API, Claude API, LLM applications
Practices: REST APIs, asynchronous programming, Agile/Scrum, test-driven development, performance tuning
Certifications: AWS Certified Developer – Associate (2024); Barclays Finance Technology Programme (2024)
Achievements & Languages: 3rd Place, Fiberplane & Cloudflare Hackathon; English (Fluent)
